TECHSERVE ALLIANCE HOSTS SENATOR JOHN CORNYN IN DALLAS

ALEXANDRIA, VA—On Friday, November 12th TechServe Alliance hosted a fundraising luncheon in support of the reelection campaign of Senator John Cornyn. We were honored to have such a distinguished member of the United States Senate as our honoree. The luncheon was part of TechServe Alliance's government affairs efforts.

We would like to thank all our contributors for making this event such a success. The final amount raised for the luncheon was well over our pre-established goals.

During the event at the Four Season Hotel in Dallas, there were remarks by Mark Roberts (CEO, TechServe Alliance), Anil Kilaru (Primus Global Services) and Barbie Barta (PSCI), as well as an address from the Honorable John Cornyn. Those in attendance had the opportunity to hear the Senator's views on many different government policies that affect businesses including immigration and the high skilled workforce; issues of great importance to many TechServe Alliance companies. Attendees were also able to ask questions directly to the Senator following his speech, allowing for an open dialog on a wide range of issues.

Representatives from over 25 IT staffing firms were in attendance. These companies were given the chance to meet and socialize with the Senator, sharing first hand the concerns of the IT Services industry. We are grateful to have had the opportunity to highlight our industry with a senior member of the United States Senate.

Senator John Cornyn is a member of a number of important committees, including the Senate Finance, Judiciary, Agriculture, and Budget Committees. He serves as the top Republican on the Judiciary Committee's Immigration, Refugees and Border Security subcommittee. He is also a member of the Senate Republican High Tech Task Force and the chairman of the Senate India Caucus.
