US IT JOB GROWTH UNDERPERFORMS GROWTH OF OVERALL WORKFORCE

Alexandria, VA, July 11, 2018 – The number of IT jobs grew 0.04% sequentially last month to 5,340,000 according to TechServe Alliance, the national trade association of the IT & Engineering Staffing and Solutions industry. On a year-over-year basis, IT employment grew by 0.78% since June 2017 adding 41,200 IT workers.

Engineering employment increased by 0.29 percent sequentially to 2,600,600. On a year-over-year basis, growth in engineering employment increased by 2.16% since June 2017 or 55,100 engineering workers.

“While IT job growth had historically outperformed the growth rate of the overall workforce, the shortage of IT talent is causing the sector to underperform,” stated Mark Roberts, CEO of TechServe Alliance. “With an insufficient domestic talent supply and the ‘doubling down’ by the Administration on its restrictive immigration policies, the ability to attract and recruit
IT professionals in high demand skill sets who have many options will continue to be at a premium” added Roberts.

The following table presents information about the total number of jobs in certain sectors that provide a significant amount of employment for IT and engineering professionals.

###

Technical note: TechServe Alliance’s IT Employment Index and Engineering Employment Index are the first specific measurements of IT and engineering employment. These are created monthly by studying the ongoing staffing patterns of a dozen IT and computer related occupations in 22 industries and industry sectors employing significant numbers of IT workers and nearly two dozen engineering occupations in 30 select industries and industry sectors employing significant numbers of engineering workers. Both Indices are based on U.S. Bureau of Labor Statistics (BLS) data, which is subject to monthly revisions, and is revised accordingly. Both indices were rebenchmarked this month with revisions going back several years. The next major revision will be published in February 2018. Additionally, from time-to-time TechServe Alliance reviews and adjusts the algorithm utilized to calculate the indices.

ABOUT TechServe Alliance

TechServe Alliance is the national trade association of the IT & Engineering staffing and solutions industry. Hundreds of IT & Engineering staffing and solutions firms and tens of thousands of affiliated professionals, count on TechServe Alliance to keep their leadership informed, engaged and connected. TechServe Alliance serves as the voice of the industry before the policymakers and the national and trade press. By providing access to the knowledge and best practices of an entire industry and tapping the "collective scale” of hundreds of companies, TechServe Alliance supports its members in the efficient delivery of best-in-class IT & Engineering staffing and solutions for clients and exceptional professional opportunities for every consultant.
