ENGINEERING POSTS STRONGEST JOB GROWTH IN A YEAR; IT JOB GROWTH MODEST IN JUNE

Alexandria, VA, July 14, 2017 – The number of IT jobs grew 0.1% sequentially last month to 5,302,200, according to TechServe Alliance, the national trade association of the IT & Engineering Staffing and Solutions industry. On a year-over-year basis, IT employment grew by 3.2% since June 2016 adding 162,100 IT workers.

Engineering employment increased by 0.2 percent sequentially to 2,564,100. On a year-over-year basis, growth in engineering employment increased by 1.3% since June 2016 or 31,900 engineering workers.

“While IT job growth remained modest, engineering job growth accelerated in June,” stated Mark Roberts, CEO of TechServe Alliance. “After decelerating in May, June was the highest rate of engineering job growth since July 2016. While one month does not make a trend, I am heartened to see improvement in the rate of engineering job growth, which has been anemic when compared to other sectors,” added Roberts.

IT and engineering jobs are found in virtually every sector and industry in varying degrees. The following table presents information about the total number of jobs in certain sectors that provide a significant amount of employment for IT and engineering professionals.

Comparisons of TechServe Alliance's IT Employment Index to employment in some key sectors with significant numbers of IT jobs as well as to all non-farm jobs									
June 2017	TechServe Alliance IT Employment Index	Computer systems and design services	Management and technical consulting services	Data processing, hosting and related services	TechServe Alliance Engineering Employment Index	Computer and electronic product manufacturing	Professional and technical services	Federal, State, and Local Government (excluding state and local schools and hospitals)	Total non-farm jobs
number of jobs	5,302,200	2,059,300	1,440,800	303,200	2,564,100	1,037,300	9,145,300	10,911,200	146,404,000
change from previous month	+ 0.12%	+ 0.24%	+ 0.2%	+ 0.3%	+ 0.18%	+ 0.1%	+ 0.2%	+ 0.3%	+ 0.2%
change from same month, one year earlier	+ 3.15%	+ 3.6%	+ 5.3%	+ 0.9%	+ 1.26%	- 1.2%	+ 3.2%	+ 0.5%	+ 1.6%

###

Technical note: TechServe Alliance's IT Employment Index and Engineering Employment Index are the first specific measurements of IT and engineering employment. These unique measurements of total IT and engineering employment are created monthly by studying the ongoing staffing patterns of a dozen IT and computer related occupations in 22 industries and industry sectors employing significant numbers of IT workers and nearly two dozen engineering occupations in 30 select industries and industry sectors employing significant numbers of engineering workers. Both the monthly IT Employment and Engineering Employment Indices are based on U.S. Bureau of Labor Statistics (BLS) data, which is subject to monthly revisions, and is revised accordingly. Both indices were rebenchmarked this month with revisions going back several years. The next major revision will be published in February 2018. Additionally, from time-to-time TechServe Alliance reviews and adjusts the algorithm utilized to calculate the indices.

ABOUT TechServe Alliance

TechServe Alliance is the national trade association of the IT & Engineering staffing and solutions industry. Hundreds of IT & Engineering staffing and solutions firms and tens of thousands of affiliated professionals, count on TechServe Alliance to keep their leadership informed, engaged and connected. TechServe Alliance serves as the voice of the industry before the policymakers and the national and trade press. By providing access to the knowledge and best practices of an entire industry and tapping the "collective scale" of hundreds of companies, TechServe Alliance supports its members in the efficient delivery of best-in-class IT & Engineering staffing and solutions for clients and exceptional professional opportunities for every consultant.
